

## SOLENOID SAFETY SHUT-OFF VALVE

SV-1026

Our solenoid shut off valve is designed to be utilized with our CO2 or O2 Storage Safety Three Alarm systems. The solenoid valve is designed to be wired in conjunction with the Three Alarm Systems to shut-off the gas supply in the room or at the tank.

## FEATURES

- Food grade valve to insure continuity of supply
- Designed to be retrofitted on the supply line out of most cylinders or bulk tanks

## SPECIFICATIONS

- **Pipe Size:** 1/8 inches
- **Orifice Diameter:** 1/8 inches
- **Minimum Operating Pressure:** 0 psi
- **Max Operating Pressure:** 130 psi
- **Coefficient of volume:** 0.30
- **Body Material:** Brass
- **Length:** 1 15/64 inches
- **Width:** 1 11/16 inches
- **Height:** 2 51/64 inches
- **NEMA Rating:** 4X
- **IP Rating:** 65
- **Standards:** UL, CSA
- UL Approved

## ELECTRICAL

- 24VDC
- Watts: 10.6

## WORKS WITH

- **RAD-0102-6** - Remote CO2 Storage Safety 3 Alarm
- **RAD-0200-2** - Remote CO2 + Oxygen Storage Safety 3 Alarm
- **RAD-0002** - Remote Oxygen Depletion Safety Alarm
